6 bankers' clamor, rather tend to induce prudent operators to exercise some caution for the present.
Foreign exchange closed dull for the steamer at

about 117½ a ½.

The Persia, which sailed to-day for Europe, only took out \$733,220 in specie. The foreign bankers, on Saturday and Monday last, loudly predicted that she would carry out two millions. It was on the strength of this expectation that gold was forced up to a premium of six per cent. Gold opened this morning at 106, declined to 195%. sed at that bid. The receip of gold by the bullion brokers and banks of gold by the bullion brokers and banks are steadily increasing. Every one who has any gold is selling it for the sake of the premium, and the operators for a rise are having their wants very promptly supplied. One element of the advance promptly supplied. One element of the advance was the New York State loan, which was to be paid for in gold; that is now out of the way. An effort is being made by some foreign houses and a few disloyal citizens to bull the specie market; but it seems a hopeless undertaking. Our foreign trade for the fiscal year shows : balance in our favor, and there is no prospect of any demand for gold for export which shall do more than restore to Europe the coin we took thence last year. Here at home there is no demand at all for gold, and the supply is larger than it ever was. Under the circumstances, holders should not neglect the present opportunity, but should send their specie into Wall street at once

There was a decided decline in prices at the Stock Exchange this morning. Central fell 1, Pa-cific Mail 134, Toledo 34, Eric 36, Eric preferred 14. Harlem 1/4. Harlem preferred 11/4, Michigar Central 11/4, Southern old 1/4, guaranteed 1/4, Illi-nois Central 1/4, Rock Island 1/4, Galena 1/4. Goverament sixes declined %, apparently upon an erroneous notion that more six per cent bonds of 1881 may be issued. State stocks were all 1/4 a 1/2 per cent lower. This decline has not taken experienced operators by surprise. After the startling advance of the past few days, a reaction was to be expected. We cannot discover that anything has occurred to change the general tendency of the market; but it cannot be expected that stocks will go on advancing forever, without any check at all. After the board the market was steady.
